Swimming Pool: Family Swim Admission Policy

1. Background

The Institute of Sport and Recreation Management has recently reviewed the admission policy for children using swimming pools.

The purpose of a Child Admission Policy is to help safeguard children who historically are most at risk of drowning in swimming pools. It is not intended to prevent children from having fun and enjoying the exercising and socialising aspects of swimming and its benefits in health terms. Nor is it intended to make life difficult for parents/carers.

By following the guidelines herein we believe that, with the help of parents/carers we can provide the opportunities for children to learn to swim, develop swimming skill, and have fun in the safest possible environment.

2. The Policy

2.1 The Institute strongly recommends that all juniors should be accompanied by a responsible person when attending the swimming pools.

2.2 A responsible person, aged at least 16 years MUST accompany all children under the ages of 8 years. They must go into the water with the children they are accompanying. Whilst in the pool the responsible person should maintain a constant watch over the children and be in close contact with those of their children who are weak or non-swimmers. The responsible person may be responsible for

- (i) one child under the age of 4 years or
- (ii) two children aged 4-7 years.

2.3 All non swimmers must be restricted to designated safe areas of the pool.

2.4 Non swimmers and weak swimmers must not go out of their depth with the exception of the very young who by virtue of their size are out of their depth in even the shallowest area of the pool.

2.5 A non swimmer or weak swimmer is defined as someone who is unable to achieve the following standards to the satisfaction of pool staff:

- (i) jump from the pool side into water 1.5m or more
- (ii) tread water for 1 minute

3. Family Swim Admission

To try to maintain a family friendly environment we only allow access to groups which include adults and children, up to the maximum capacity of 35 people. Please Note that due to consistent behavioural issues no participants under the age of 16 will be allowed access to Family Swim sessions without a responsible adult.

4. Children's use of the changing rooms

Responsible persons accompanying children under 8 years old to the swimming pool will be able to take them into an 'opposite sex' changing room if there is no other responsible person with them to take them into the 'same sex' changing room. This is because it is reasonable to assume that a child too young to swim unaccompanied is too young to fend for him or herself in a changing room

5. Code Of Conduct

It is the responsibility of every swimmer to respect the rules of the pool and their fellow swimmers:

- ***Always listen to Lifeguards.***
- ***Shower before you swim.***
- ***Follow Pool Rules.***
- ***Swim in an appropriate manner***
- ***Use appropriate language***

Did you know?

All public swim sessions including Adult Swims, Family Swims and Ladies Only Swims are free for all

All participants must collect a ticket from reception. Tickets are allocated on a first come first served policy from 30 minutes before the session is due to start. All swims have a maximum capacity which can not be exceeded. Access to the swimming pool will not be allowed without a ticket.
