ADPTOY Interface Installation

1. Because of the different area and different type of car , Please adjust the Loop Wire before install this interface.

ACC OFF → connected assembly cable → insert 12P plug→ACC ON

2. If the head unit can not select the function for interface when it is power on, please press down “ACC OFF” →”ACC ON” if still can not select the function for interface, it means the mode is not compatible with head unit. Under the condition, press “ACC OFF” →remove 12P plug→unplug loop wire→re-connect 12P plug after 5 seconds→ACC ON

(Head unit will show CD CHANGER or CD1)
